CAREER OBJECTIVE

IT graduate with internship experience in AI-powered applications, NLP pipelines, and LLM integrations using Python and Flask. Skilled in building scalable backend systems, REST APIs, and AI-driven automation workflows, with hands-on experience in RAG, OCR, and enterprise AI solutions. Interested in applied AI, backend engineering, and real-world software development.

INTERNSHIP EXPERIENCE

AI Developer Intern

Mar 2025 – Apr 2026

CubeAISolutions Tech Pvt. Ltd., Bangalore | Stipend-based Internship

- Developed NLP-based automation pipelines using Python and Flask to process enterprise-scale data and support AI-driven client workflows.
- Integrated LLM-powered features into enterprise applications through REST APIs, contributing to multiple production releases and workflow automation features.
- Collaborated with cross-functional teams on AI model integration, testing, and deployment in a real-world enterprise development environment.

TECHNICAL PROJECTS

Pharma AI (MetricsNumero)

Technologies: Python, Flask, React, NLP, OCR, Computer Vision, Firebase

- Contributed to AI-powered pharmaceutical applications focused on quality assurance, compliance, and document intelligence workflows.
- Developed MetricsNumero, an AI-based batch record compliance assistant using Groq LLM, HuggingFace embeddings, and OCR for pharmaceutical document analysis.
- Implemented computer vision modules for vial defect detection and delamination analysis using Flask-based processing pipelines.
- Assisted in building a CAPA Management Tool with Firebase integration to support Corrective and Preventive Action tracking workflows.

GenCanvas — AI Diagram Studio

Technologies: React, TanStack, Vite, FastAPI, Tailwind CSS, Zustand, Excalidraw

- Developed an AI-powered Enterprise Architecture diagramming tool that generates multi-tiered architecture diagrams from prompts and uploaded documents.
- Implemented parsing support for PDF, Word, PPT, JSON, and text files to extract architecture details and generate structured visual diagrams.
- Integrated icon libraries including Iconify and Devicon for automatic rendering of technology logos with export support for JSON, SVG, and Mermaid formats.

Kogniv — AI Knowledge & Productivity Platform

Technologies: Python, LLMs, RAG, Vector DB, ServiceNow, AI Agents, Docker

- Contributed to an enterprise AI platform integrating ServiceNow, Salesforce, and Gmail for unified knowledge retrieval and intelligent search workflows.
- Developed AI agent workflows for ServiceNow integration with real-time automation, document summarization, semantic search, and contextual recommendations.
- Implemented RAG-based retrieval pipelines with vector search and supported Dockerized deployment using a modular connector architecture.

TECHNICAL SKILLS

Programming Languages	Python, Java (Basics), JavaScript ES6+, SQL
Frameworks & Tools	Flask, REST APIs, Git , GitHub, Docker
AI / ML	Machine Learning, NLP, LLMs, RAG Deep Learning Basics
Libraries	TensorFlow / Keras, Scikit-learn, Pandas, NumPy
Integrations	ServiceNow, Salesforce, Gmail API, Vector Databases
Other	HTML5 / CSS3, Photoshop, IoT Fundamentals

EDUCATION

B.Tech — Information Technology (Hons) Excel Engineering College, Erode Anna University CGPA: 8.6	Nov 2022 – Apr 2026
Higher Secondary Certificate (HSC) St. Mary's Higher Secondary School	Jun 2020 – May 2022
Secondary School Leaving Certificate (SSLC) Arunachalam Higher Secondary School	Jun 2019 – Apr 2020

CERTIFICATIONS, AWARDS & LANGUAGES

Certifications	- Wipro TalentNext : AI Foundation, Cloud Computing Foundation, IoT Foundation. - Advanced Python Programming - NCC A, B & C Certificates - International Conference on AI Development in ERP Systems (Published)
Achievements	- Athletics Winner at Division, Zonal & District levels - Active Hockey Player - Creative Writing & Drawing
Languages	Tamil (Native), English (Professional), Malayalam (Fluent)
